### **HOW DOES A SUPPORTERS' TRUST DIFFER FROM** **A SUPPORTERS' CLUB**

- The biggest difference is that a Trust is a registered Industrial & Provident Society. As soon as a Trust owns shares it has a legal right to ask the football club questions about how it is run and it is entitled to vote at the football clubs AGM's and EGM's.
  - Trusts will also fund raise. These funds are not just given to the club though. They are used to negotiate benefits to the Club, the Trust and its Members. For example Cambridge Fans United Trust, recently paid players wages in exchange for a substantial number of shares in the club.
  - It is also the Trusts' main aim to have a nominated supporter on the board of the football club. This would ensure that the fans have a voice which is heard and have the chance to influence the way the club is run.
-

At our launch night we shall also be launching the JUNIOR POSH TRUST. It costs just one pound to join and all members get their own Junior Share Certificate.

We plan to have events throughout the year which will involve the juniors. In addition to their Certificate, junior members will receive free gifts. The first 50 juniors will also receive a free autograph book. They will have many opportunities to gain entries from 'Posh' stars past and present at the Cresset. So get them a ticket too and bring them along on the launch on Monday 10th March.

### **LAUNCH EVENING INFORMATION**
